

ENSURE YOUR FAMILY MEMBERS RECEIVE THE BEHAVIORAL HEALTHCARE THEY NEED

MORE THAN
85%

OF ALL NURSING HOME RESIDENTS HAVE A
DIAGNOSABLE BEHAVIORAL HEALTHCARE NEED, YET
LESS THAN HALF RECEIVE TREATMENT.

Encounter Telepsychiatry specializes in the treatment of behavioral health issues. We provide clinical services and support by offering:

Psychiatric
Evaluations

Medication
Management

Therapy and
Counseling

Staff
Training

We offer psychiatric and mental healthcare for residents:

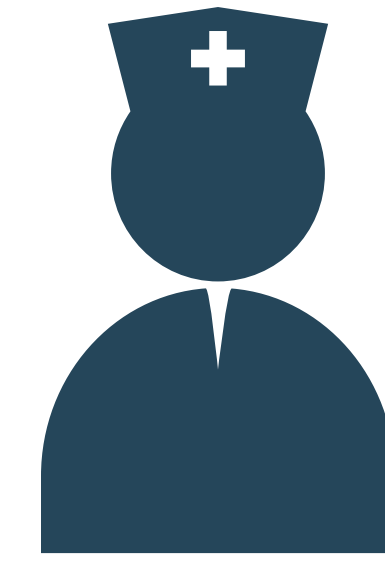

- with dementia.
- who are taking anti-depressants, anti-anxiety, and anti-psychotic medications.
- that have a diagnosed mental health illness such as depression, anxiety, stress, PTSD, schizophrenia, bipolar disorder, and more.

Our providers specialize in assessing, managing medications, and providing a variety of therapies to care for the individual needs of each resident.

Consistent, Caring Appointments

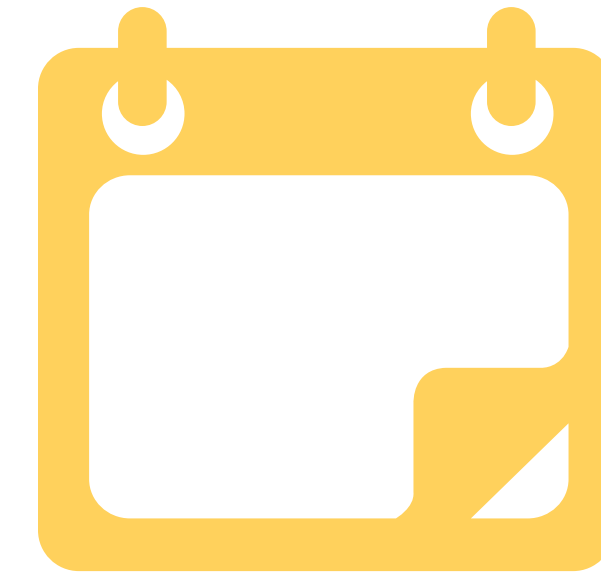

Appointments are conducted at the resident's facility. This allows residents to feel at ease and benefit most from their visit.

A facility staff member accompanies the residents during the appointment.

This person serves as an intermediary and is available to answer questions and help manage the technical aspects.

Appointments are conducted on a weekly or monthly schedule, depending on your family member's needs.

Partnering Together for Better Quality of Life

Encounter knows that family members are a vital part of the care team. We partner with the facility staff, other care providers, and you to ensure the best possible treatment for your loved one.

Having a family member suffering from mental illness can be exhausting and stressful. Encounter is here to help. In addition to services for facility residents, we offer family counseling.

Our Promise

We will meet the needs of your family member through:

- Offering board certified and credentialed health care providers
- Utilizing a consistent provider for each visit
- Conducting private, secure, and HIPAA-compliant appointments
- Accommodating family members who would like to attend appointments with their loved one
- Being available and responding in a timely manner.
